Of the Morgan and Delano contest for a seat in the Fortieth Congress, the Mount Vernon Banner says it will be proven that in three townships votes for Morgan were taken from the ballot-box, and votes for Delano put in their place. It will be proven that several hundred non-resident voters were imported into the district, from other districts and States, and that they voted for Mr. Delano. It will be proven that various frauds were committed by the friends of Mr. Delano, while we have a clear record.

The Proposed New Tariff.

The legislation of the present Congress to protect and enrich a few individuals at the expense of the masses of our citizens, has been and is being carried to such an extent that even Radical journals are denouncing it throughout the country. The Chicago Tribune in a recent article shows its disgust at the brazen-faced impudence of the manufacturing interests of the country, and declares it will support Andrew Johnson if he will veto the pending tariff bill and will endorse and urge upon the Legislatures of the Southern States the adoption of qualified negro suffrage. The New York Herald, speaking of this iniquitous measure says:

"Instead of a bill to increase the revenue, it ought to have been entitled a bill to blockade our own ports. We are practicing upon ourselves, in time of peace, what we inflicted on the South as the stern appliance of war. The beauties and benefits of complete protection to home industry were enjoyed by the South in perfection, but it is not generally supposed to have enriched the Southern people. Its only effect was to produce universal distress."

"The sole object of the species of robbery misnamed protection is to keep up or carry up prices, that is, to prevent all consumers from getting as many goods for the same money as they would if trade were left free. The manufacturers being confessedly unable to make goods as cheap as they can be imported, having confessedly gone into unprofitable branches of business, have the impudence to ask that other people shall be compelled to make up their losses. And this legal robbery of some to reward the bad management of others is called 'protection'!"

Where's the Nigger?

A Radical sheet says: "We have had the Republican victory; now where's the nigger?"

Go to your store, and you get from eighteen to twenty-five cents worth of nigger in every yard muslin you buy; from ten to fifteen cents' worth of nigger in every yard of calico your wife and children use; from six to eight dollars in each barrel of flour your family consumes; twenty-five cents worth of nigger in each pound of coffee you purchase; from eight to twelve cents' worth of nigger in each pound of sugar you buy to sweeten it. You will find a small bit of nigger in your box of matches, and considerable nigger in your plug of tobacco. You can eat nothing, wear nothing, taste nothing, or have nothing, that is not more or less affected by the miserable niggerism that has controlled the country in the past six years.—Constitutional Union.

LATEST WASHINGTON NEWS.

WASHINGTON, Feb. 9.—President Johnson called upon George Peabody to-day as a private citizen, and in conversation paid the latter a high compliment for his magnificent donation to the educational interests of the South. Mr. Peabody, in alluding to England, said there was now a more friendly feeling towards the United States by the people and Government of that country than ever before.

The Nebraska bill was passed over the veto in the House of Representatives by a vote of 90 for, to 44 against.

WASHINGTON, Feb. 10.—The committee of Ways and Means will probably to-morrow report amendatory to the Internal Tax bill, based on the theory of getting rid of the tax on manufacturing, at the earliest possible moment. But the wants of the Government this year will not permit it to be done at once, hence the principle is to be gradual in its operation. To partially carry out this object, the committee propose to exempt from tax all articles which enter largely into the cost of living, for instance, salt, leather, tin, earthen, pottery and hollow-ware are exempted, as are also hoes, rakes and scales. All steam and horse engines, all drain, gas or water pipes of iron, wood or other material, all clothing made from articles subject to tax, woven or knit, are not, however, exempt from tax in case where a tax has not been paid on the raw material. Advertisements to be relieved from tax.—Many manufactures which are now taxed 2 per cent., to be free from tax, among these are all glue and varnish, and all wagons, drays and trucks costing less than two dollars, used for freight purposes. Butter and cheese to be free from tax.

A section is added to exempt the duplication of tax; so where there is a tax on the raw material there shall not be another on the manufactured article in its various forms. The tax is to be either on the raw or manufactured article. A large number of articles are to be exempt from tax because the expense of collection is not equivalent to receipts therefrom. Tax is to be removed from match-boxes, but a stamp is to be attached for matches, boxes or other packages or bottles are also exempt when their contents are taxed. The committee propose, in addition to dry casks and barrels, to exempt all other casks, barrels or other coopers, including city liquor, meat and fish barrels and casks. The tax remains the same on liquors or distilled spirits, but the license for distilling is increased from \$100 to \$500. Relating to distillation from grape, apple and peach, remain unchanged, but brandy made from grapes is to be taxed 50c a gallon. The income tax is to be on the amount in excess of 1,000, and at a uniform rate of 5 per cent. The rent, taxes, insurance and repairs of all kinds, &c., to be taken out on incomes, so in effect income is to be exempt to an average amount of \$1,500. In addition there is a new provision for collection of the tax on spirits of an ironclad character. Where the present law says fine or imprisonment, the bill visits both on the convicted offenders, and where it says the imprisonment shall not exceed two or three years the bill provides that the imprisonment shall not be less than two or three years, nor more than four.

Other sections have been added to prevent fraud—such as the following: Where an article is offered for sale at less than the amount of tax, this fact is to be regarded as prima facie evidence that it has not paid tax, and is, therefore, subject to seizure.

The Patent Office is the only self-sustaining branch of the Government. The fund now on hand for paying the entire expense of the offices is \$28,000, all paid by inventors.

It has been ascertained that Nebraska has about 100,000 inhabitants, and this number is increasing rapidly.

Three Children Rescued by a Dog.

During the great storm last week three little children of Mr. Timothy Way, of Rivendale, Gloucester, Mass., while returning from school, became bewildered and exhausted, and were buried in the snow drifts. Fortunately Mr. James Jeffe, accompanied by his dog, was wondering his way to the school-house to see his children safely home, when the dog stopped at a drift and set up a loud barking, at the same scratching away the snow. Mr. Jeffe suspected something was wrong, and commenced to dig away the drift, when he soon found the children, who were nearly frozen to death. They were taken home, and by prompt care and attention, resuscitated. Their escape from death was providential.
